How to Find Your MAC Address with the Command Prompt

The quickest way to find the MAC address is through the command prompt.

1. **Open the command prompt.** Right-click on the Start button and select Command Prompt from the menu.

2. **Type in `ipconfig /all` and press Enter.** This will display your network configuration.
3. **Find your WiFi's physical address.** Scroll down to your wireless network adapter and look for the values next to "Physical Address," which is your MAC address.
